WARRANTY

WARRANTY FOR STANDARD PRODUCTS—Seller warrants all Seller products to be free from defects in materials and workmanship in normal use for a period of one (1) year from the date of invoice. If Customer receives defective goods or parts, Customer may send such defective goods or parts prepaid to Seller in Valencia, California accompanied by a letter stating the nature of the defect. After examination, if there is determined to be a defect in materials or workmanship, Seller shall, at its sole option and discretion, rework, repair or replace the defective goods or parts, or reimburse Customer for the cost of the goods or parts. All shipping costs for return of defective goods and replacements are the responsibility of Customer. Customer agrees that Seller will not be held responsible for parts or labor (other than Seller's parts and labor) in connection with reworking, repairing or replacing of such goods or parts. THE WARRANTY STATED ABOVE IS IN LIEU OF ALL OTHER WARRANTIES, CONDITIONS OR OTHER TERMS, EXPRESS OR IMPLIED, STATUTORY OR OTHERWISE, INCLUDING WITHOUT LIMITATION ANY IMPLIED WARRANTIES OF TERMS AS TO QUALITY, MERCHANTABILITY, FITNESS FOR

PARTICULAR PURPOSE OR OTHERWISE, WHETHER IMPLIED BY CUSTOM OR LAW.

LIMITATION OF DAMAGES - IN NO EVENT SHALL SELLER BE LIABLE FOR ANY INDIRECT, INCIDENTAL, CONSEQUENTIAL, SPECIAL OR PUNITIVE DAMAGES OF ANY KIND OR NATURE ARISING OUT OF OR RELATING TO THE TRANSACTION CONTEMPLATED HEREBY OR TO THE MANUFACTURE, SALE, DELIVERY, RESALE, REWORK, REPAIR, REPLACEMENT, OR USE OF ANY PRODUCTS, WHETHER SUCH LIABILITY IS BASED IN CONTRACT, TORT, NEGLIGENCE, STRICT LIABILITY OR OTHERWISE, EVEN IF SELLER HAD BEEN WARNED OF THE POSSIBILITY OF ANY SUCH DAMAGES.

THE WARRANTIES AND DISCLAIMERS OF WARRANTIES SET FORTH HEREIN MAY NOT BE EXTENDED, ALTERED OR OTHERWISE MODIFIED EXCEPT BY WRITTEN INSTRUMENT SIGNED BY SELLER.

TERMS: NET 30 DAYS (O.A.C.)
MINIMUM ORDER \$50.00 NET (CASE QUANTITY)
LEAD TIME: 1-3 BUSINESS DAYS

“Smart” Check® Valves

The “Smart” Check® provides you with reliable back-flow prevention without the inline restriction of a conventional check valve. With the use of high powered magnets, the “Smart” Check valve remains in the closed position to 2 PSI, opening fully when 2 lb. line pressure is exceeded. The “Smart” Check has a Spring-Loaded gate mechanism allowing the valve to be installed in any orientation. The valve is also available in a non-magnetic, ½ lb. Spring-Loaded version.

Available in ½” through 3” IPS sizes. The “Smart” Check Valves are rated at 150 PSI at 73°F. All “Smart” Check Valves are also available as a Swing-Check, without Spring. Minimum order quantities apply. Please contact the factory direct for details.

Retro “Smart” Check® Valves

Switch out and upgrade old style restrictive Center-Poppet Spring or old style Swing Check Acme Threaded valves with Magic Plastics' Retro Replacement Smart Check® Valve Bodies. There is no longer a need to purchase the entire valve assembly and discard the Union Fittings. Magic's Retro is sold separately as a replacement body in 1½" and 2" sizes. Most importantly, you get the same Full-Flow design as Magic Plastics' innovative and popular Smart Check® Valves. The light ½ lb. spring allows you to install the valve in any orientation while still achieving a 100% Full-Flow opening.

Hose Clamp Check Valves

Simplify your installation with Magic Plastics’ Hose Clamp Check Valves. There is no need to solvent weld, just secure the Hose Clamps with a screwdriver. The innovative design of the Smart Check® Valve will eliminate water hammer noise and also allows you to install the valve in any orientation. This is the perfect valve for DIYs! All materials used to manufacture the valves meet ASTM standards. Available in 1½” and 2” sizes in White and Clear PVC.

Slide-Check & Ball-Check Combo Valves

Magic Plastics’ compact Slide-Check and Ball-Check Combo Valves combine the Valve and a “Smart” Check Valve in the same unit; saving you both excess time and labor during installation. The design of the “Smart” Check Valve will eliminate water hammer noise while also providing you with the luxury of installing the valve in either orientation, horizontally or vertically. Easy connection Buttress Thread Unions allow for cleaning of both valves when necessary. Slide-Check Combo Valves come equipped with the MagicSnap External Valve Lock to prevent accidental closure. All Slide-Check and Ball-Check Combo Valves are made from PVC and meet ASTM standards. Available in 1½” and 2” Slip configurations.

“CR2®” Corrosion Resistant Check Valves

The “CR2®” Back-Flow prevention check valve is completely corrosion resistant, making it the ultimate solution for protecting your expensive Heat Exchangers from the potential damage of inline Chlorinators while also maintaining a Full-Flow circulation system. Numerous features are included with the “CR2®” Valve including a proprietary designed Hastelloy® Spring, Glass-Filled Noryl injection molded shaft, 100% Silicone Gasket and a Clear, serviceable lid. The “CR2®” Valve is also equipped with a ½ lb. spring-loaded gate, allowing it to be installed in any orientation. The “CR2®” valve is available in 1½” Slip, 2” Slip and 2½” Spigot. Economy version without Hastelloy® Spring available.

Utility Molded-In-Place Ball Valves

Specifically designed for Residential, Commercial and Industrial applications, the Magic MIP Ball Valves are equipped with EPDM Seats and O-Rings, providing smooth operation and excellent chemical resistance. All Valves comply with ASTM 2467 Standards and operate at a working pressure of 150 PSI at 73°F. Magic MIP Ball Valves are available in ½" through 3" Slip x Slip configurations.

Threaded configurations and larger sizes (4", 6" and 8") are available upon request. Minimum order quantities apply. Please contact the factory direct for details.

Uni-Body Valves

The innovative patented design of the Magic Uni-Body valve was engineered for use in a wide variety of industries and applications. The included MagicSnap guarantees zero flow restriction while the valve is in the open position while the Cam-Lock function provides a 100% positive seal when shutoff is required. We have also added a specially formulated dry lubricant to our Seals and then overmold them directly to the valve gate, eliminating the need to repair or replace the gate seals. The Magic Uni-Body valve is available in a variety of configurations in 1", 1½", 2" and 2½" IPS sizes.

Spa Drain Valves

Simplify your servicing needs with Magic Plastics' patented Drain Valve. Manufactured from impact modified ABS and equipped with a total of 5 Teflon Impregnated O-Rings, the Magic Drain Valve is accessible to the consumer and simple to use. Designed for Skirt or Kick-Plate installations, the Drain Valve is flush mounted to the wall and secured in the closed position.

To operate, pull the spout out, leaving the exterior end cap on. Once extracted, by design, the Drain Valve will stay in the closed position. After the garden hose is installed, push the spout back in halfway to actuate the drain. The valve is also equipped with a removable bezel in order for the skirt to be detached without disturbing the plumbing. The Magic Drain Valve also has built in freeze protection and will drain approximately 5 gallons per minute. Available in 1/2" Slip, 3/4" Barb or 3/4" Spigot configurations. For detailed illustrated instructions, visit our download center at www.magicplastics.com.

Compact Air Check Valves

Magic Plastics' Compact Air Check Valves are ideal for all Spa, Jetted Tub and Pool applications. The Air Check Valve is equipped with various spring tensions and a 100% Silicone Seal. The true compact design will save valuable space, providing a quiet and smooth operation virtually eliminating possible valve chatter during shutdown. Available in 1 1/2" Slip - 2" Spigot in PVC or Polycarbonate Clear for higher heat applications and improved clarity.

MagicVac

The MagicVac is operated by placing your thumb over the ergonomic air hole located at the top of the Vac, submerging it near the area to be cleaned, then releasing your thumb. A rush of water and debris will fill the clear, UV stabilized chamber. Raise the full chamber above the water line and allow it to drain, away from the spa. Virtually all debris will remain trapped in the built in removable filter. Detach the End Cap with a simple quarter turn and empty the debris. The MagicVac picks up sand, pebbles, even small rocks. You will be able to reach areas in excess of seven feet away with the telescoping aluminum pole. The MagicVac is completely serviceable and weighs less than two pounds.

LIGHTING ADAPTOR PLATES

QwikLED® was created because of a demand for new LED lighting in older pools. Approximately 95% of pools in the United States still have older pool light niches, making it impossible to replace them with a new small LED light. This issue has not only made it costly to replace older lights but also has made it economically demanding for pool owners to try and simply reduce their energy usage and/or enjoy color LED lighting. The QwikLED® is available in the Standard Plate and Plaster Plate in Gray, Dark Gray, and White. Spa size is coming soon!

*LED light sold separately.

90° SWEEPS • SPA COMPONENTS & WHITE GOODS

90° Sweeps

Magic Plastics' Sweep 90° Fittings and assemblies are designed to maximize flow and minimize restriction. Available in a variety of configurations in 2" IPS sizes, Magic's Sweep 90°s will provide you with the best performance in the industry while meeting all of your plumbing requirements. All 90° Sweeps are manufactured from quality PVC.

Spa Components & White Goods

Magic Plastics continues to expand our line of Spa Components. Contact the factory if you require an item or configuration that is not listed below or in our catalog of products. Magic Plastics is continually growing our line of products and will consider your product or component based on volume.

Manifolds

Easily fabricate custom stack lengths with our complete line of Water and Air Manifolds. Precision barb fittings assure a permanent seal. The compact designs of our Manifolds are ideal for space limitations. All Manifolds utilize standard Clear Vinyl Tubing. Custom configurations are available, contact the factory for details.

Magicmend® Pipe Extenders

Save valuable fittings and time with the MagicMend® Pipe Extenders. The MagicMend® is extremely effective and easy to use. Simply cut the defective fitting from the system, remove it and install the Extender. The MagicMend® will work at any glued plumbing joint, providing a permanent, invisible repair with insignificant flow restriction. The MagicMend® is available in 1/2" through 4" IPS sizes for Schedule 40 Pipe and 1", 1 1/4", 1 1/2" and 2" sizes for Class 200 Pipe.

Magicmend® Extender Fittings

The MagicMend Extender Fitting is designed to glue over existing fittings where there is not enough pipe left for a connection. Simply remove any excess pipe and connect the MagicMend Extender Fitting by gluing over the existing fitting. The standard 1 1/2" & 2" Extender Fittings will accept a 1 1/2" Pipe or a 2" fitting, so you have the option of continuing the plumbing with either size pipe. The part numbers ending in (F) only accept pipe.

REPAIR FITTINGS • ADAPTERS

MagicMend® Insider Connectors

Why use an additional fitting when you can use a MagicMend® Insider Connector? The MagicMend® Insider Connector will join two pieces of PVC Schedule 40 pipe together. Should a pipe be cut off flush with concrete or buried underground, a MagicMend® will easily solve the problem. The MagicMend® Insider Connectors are available in 1", 1¼", 1½", 2", 3" and 4" IPS sizes.

Connects Schedule 40 pipe.

Copper-To-PVC Adapters

This is the ideal fitting for an easy and smooth transition from Copper to PVC pipe. Fittings are assembled with Buna-70 O-Rings that provide a positive water tight seal and also an internal Stainless Steel gripper ring to prevent the pipe from pulling out, ensuring a solid connection. Available in 1½" and 2" IPS sizes.

PART NUMBER	SIZE & DETAIL DESCRIPTION	QTY CASE	WT CASE
0606-15	1½" Slip - 2" Spigot Copper-to-PVC Adapter	24	13
0606-20	2" Slip Copper-to-PVC Adapter	18	11

Heater-Pump Adapters

Magic's Adapter Bushings are designed to increase a 1½" MBT fitting to a 2" MBT fitting simply by threading the adapter to the female threaded fitting. The internal thread of the bushing is 1½" FBT with an O-ring (included), ensuring a positive seal. The external thread is 2" FBT. You can choose from two configurations, one with O-ring groove for Heater applications and one without O-ring groove for Pump Union applications. Adapters are manufactured from quality PVC.

PART NUMBER	SIZE & DETAIL DESCRIPTION	QTY CASE	WT CASE
0060150019	Adapter, 1½" FBT x 2" MBT w/O-Ring Groove	228	48
0060151019	Adapter, 1½" FBT x 2" MBT	228	49

Union Assemblies

Easy connection, self-aligning Buttress Threads and deep socket connections with glue traps make Magic Plastics' Union Assemblies reliable and leak-free. Additionally, Magic Plastics' Union Assemblies feature our Patented VibeProof® locking feature to assure the Union Nut will not loosen or backout should vibration occur. Magic Plastics' Union Assemblies are available in a variety of configurations in 1", 1½", 2", 2½" & 3" IPS sizes. For more information on VibeProof®, go to www.magicplastics.com/vibeproof/

High Heat Union Assemblies

Magic Plastics' Self-Sealing High-Heat Unions prevent plumbing failures due to extreme heat buildup caused by the pump running dry. Manufactured from durable GFN3, the High-Heat Unions include a positive O-Ring seal, eliminating the need for additional thread sealants. The Unions also incorporate Magic Plastics' Patented VibeProof® Technology. Available in 1 ½" and 2" IPS sizes and rated at 175 PSI @ 75°F.

HOSE BIBBS • FLOW INDICATORS

Hose Bibbs

Magic Plastics' Hose Bibbs are manufactured from quality PVC and are completely serviceable. Designed for use for temperatures up to 120° F at 50 PSI. Pipe and Hose Threads comply with ASTM standards. Available in 1/2" and 3/4".

PART NUMBER	IPS SIZE	QTY CASE/ MASTER	WT CASE/ MASTER
PVC Hose Bibbs			
0203-05	1/2"	48/192	8/35
0203-07	3/4"	48/192	8/36

Flow Indicators

Magic Plastics' Flow Indicators provide immediate visual confirmation of liquid or gas flow. The clear Polycarbonate case allows for an unobstructed view of the Red Polypropylene paddlewheel, which spins freely with flow. Stability and relative flow rates are indicated by the speed of the paddlewheel's rotation. The minimum flow rate is 0.5 LPM, maximum flow rate is 6 LPM. Not for use with caustic chemicals or fluids with a temperature in excess of 140° F. Available in 3 configurations, 1/8" Barb, 1/8" NPT and 1/4" NPT.

I.B.C. Products

A number of products are available for this growing industry. The durable Uni-Body valve attaches to the I.B.C. liner by way of a union-like Buttress threaded Flange. A probe cutter allows the valve to be attached securely to the liner in any position, providing a positive seal connection before the liner membrane is pierced for evacuation. The I.B.C. Valve and Flanges are available in a variety of configurations. In addition, the Flanges are available in both PVC and LLDPE materials.
